

LP135n

Fast A3 printing for your office

LP135n

Speed, Connectivity, Affordability

Those three words best describe the Lanier™ LP135n. With a printing speed of 20 A3 pages per minute (35 ppm, A4), you can use the Lanier™ LP135n for printing flowcharts, leaflets, spread-sheets and other office documents that benefit from an A3 paper size. Finally, your ledgers will be clearly readable. The Lanier™ LP135n ships with plenty of standard capacity. Yet its speed and affordability set it apart from the crowd. You will not have to worry about connectivity either. This printer comes with a network interface board installed. If you like your equipment to follow the latest standards, the Lanier™ LP135n will lead the way with its choice of new generation connectivity options.

A Fast and Versatile Print Workflow

The Lanier™ LP135n offers you the tools to keep you one step ahead. With its high print speeds and excellent connectivity, this system stands for the ultimate print solution. In addition, you obtain direct PDF print possibilities as well as one click printing to make sure your productivity is optimum.

High Productivity

The Lanier™ LP135n's CPU is certainly not underclocked at 372 MHz. Your benefit? Raw performance. The Lanier™ LP135n's first print speed and warm up time are equally impressive. Its A4 double-sided printing speed approaches its simplex performance. This system is just as fast when printing documents up to 1,200 dpi as it is at resolutions of 300 dpi. Lanier's printer language RPCS™ offers an icon based interface: any print job is only one click away. Using RPCS™, you enjoy a productivity increase of up to 30%.

From Logistics to Finance & Accounts

The Lanier™ LP135n enables you to directly print PDFs with greater speed and less network overhead. The LP135n is capable of printing barcodes natively. The DIMM based option integrates the LP135n with SAP®R/3® through the Device Type system. It turns the LP135n into an ideal solution for logistics centres and supply chain management.

No matter which paper handling option you choose, they all simply click in place.

To maintain your office users' productivity at the highest possible level, the Lanier™ LP135n enables you to print at 35 pages per minute. A3 performance is just as inspiring at 20 ppm. Every user's need is satisfied at an affordable price.

Grand Capacity

The Lanier™ LP135n offers optional paper feed units for a total input capacity of 1,600 sheets. The standard bypass tray and optional envelope feeder are included to complete the input side. Installing options is easy: just "click" in place, no additional tools required. The duplex unit allows you to save paper. A3 capabilities enable accounts departments to print ledgers efficiently. All these features combined make the Lanier™ LP135n ideally suited for enterprise environments.

Efficiency Enhancing Features

With the optional Hard Disk Drive in place, Locked Print™ allows you to release your confidential prints by entering your password at the control panel. Sample Print™ avoids misprints and therefore controls paper costs and helps you save the environment.

Low TCO

An affordable purchase price, duplex printing, A3 capabilities and Sample Print™ keeps the Lanier™ LP135n running costs as low as possible. Add to this the LP135n's flexibility in terms of operating environment and its remote administration friendliness and you end up running a printer with an extremely low Total Cost of Ownership (TCO).

Connecting to Everything

The Lanier™ LP135n connects to your office environment using about every connectivity protocol currently available. There is the standard

parallel interface for direct connection to legacy computers and the network board for Ethernet 10 base-T/100 base-TX. You can also install FireWire (IEEE 1394), IEEE 802.11b (Wireless LAN) and Bluetooth for the ultimate in connectivity.

Advanced Device Monitoring

Via Web Image Monitor and SmartDeviceMonitor™ you can monitor the status of networked peripherals through common web browsers. With SmartDeviceMonitor™ for Admin, IT managers and network administrators can set user privileges and obtain complete job statistics.

Optimal Document Management

The Lanier™ LP135n comes with DeskTopBinder™ Lite, a versatile workflow integration software tool that allows you to merge different formats into one file.

Environmental Care

Lanier is a world leader in low environment impact. Everything – from design to end of life of a product – in Lanier's production and administrative units, is tied to a zero waste policy. The LP135n is no exception. It supports the Energy Star®Tier2 specifications, runs very quietly and consumes as little power as possible.

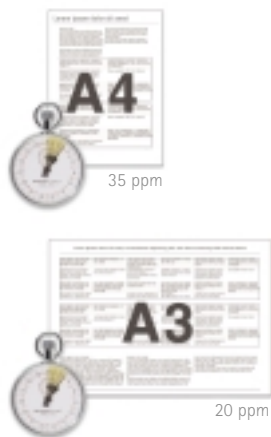

Safety Net

Lanier has a worldwide presence. Our all- encompassing service and support organization enables you to get the most out of your Lanier™ device and find the optimum performance for your document handling.

Whether you are printing A4 or A3, the Lanier™ LP135n will amaze you with its superb printing speeds.

LP135n

GENERAL

Technology:	Laser beam scanning, electro photographic printing & dual component toner development	
Continuous print speed:	35 prints per minute (A4) 20 prints per minute (A3)	
Warm up time:	19 seconds or less	
First print speed:	6.5 seconds or less	
Dimensions (W x D x H):	478 x 437 x 343 mm	
Weight:	20 kg or less (weight without starter kit)	
Power source:	220 – 240 V, 50/60 Hz	
Power consumption:	Maximum:	850 W
	Energy saver mode:	6.5 W
Duty cycle:	200,000 pages per month	

CONTROLLER

Processor:	TMPR4955 372 MHz	
Printer languages/ resolution:	PCL5e: 300/600 dpi PCL6, Adobe®PostScript®3™, RPCS™: 1,200/600/300 dpi	
Memory:	Standard:	128 MB
	Maximum:	256 MB
	Hard Disk Drive:	6 GB
Drivers:	PCL5e/RPCS™:	Windows®95/98/Me/NT4.0/ 2000/XP/Server 2003
	Adobe®PostScript®3™:	Windows®95/98/Me/NT4.0/ 2000/XP/Server 2003 Macintosh 8.6 – 9.2 Macintosh X (native mode)
Fonts:	PCL:	35 intelli fonts 10 true type fonts 1 bitmap font (31 fonts can be downloaded)
	Adobe®PostScript®3™:	136 Adobe®type 1 fonts
	Option:	OCR Barcode

CONNECTIVITY

Network protocol:	TCP/IP ,IPX/SPX, NetBEUI, AppleTalk	
Supported networks:	Windows® 95/98/Me/NT4.0 2000/XP Server 2003 Novell®NetWare®3.12, 3.2, 4.1, 4.11, 5.0, 5.1, 6 UNIX Sun® Solaris 2.6/7/8,HP-UX 10.x/11.00 SCO OpenServer 5.x RedHat® Linux 6.x /7.x Macintosh 8.6 - 9.2.x (OS X Classic) Macintosh X v10.1 or later (native mode)	
Interface:	Standard:	Bi-centronics IEEE 1284 ECP Ethernet 10 base-T/100 base-TX USB 2.0
	Option:	FireWire (IEEE 1394) Wireless LAN (IEEE 802.11b) Bluetooth

Network utilities:	Standard:	DeskTopBinder™ Lite SmartDeviceMonitor™ for Admin SmartDeviceMonitor™ for Client Web SmartDeviceMonitor™ Web Image Monitor Printer utility for Macintosh Job binding Font Manager 2000
	Option:	Document management utilities & professional software versions
Additional features:	PDF Direct Print	

PAPER HANDLING

Paper input capacity:	Standard:	500-sheet paper tray 100-sheet bypass tray
	Maximum:	1,600 sheets
Paper output capacity:	Standard:	250 sheets
Paper size:	Paper trays:	A3 -A5
	Bypass tray:	A3 -A6
Paper weight:	Paper trays:	60 -105 g/m ²
	Bypass tray:	60 -162 g/m ²
Media:	Plain paper, recycled paper, coated paper, transparencies, laser printer labels, envelopes	

CONSUMABLE

Toner:	Black:	20,000 sheets ¹ The Lanier™LP135n ships with a starter kit.
