# Meeting today's needs and tomorrow's requests

How can you speed up your workflow and make it more productive?

The MP 285I and MP 335I offer constructive answers. They are fully customisable and offer a variety of new, exciting benefits including excellent speeds and distribution possibilities.

- Print, copy, scan and fax from one device.
- Excellent productivity at 28/33 pages per minute.
- Paper-saving duplex capability.

## Impressive productivity

As office demands increase, so does your need for a highly productive partner. The MP 285I and MP 335I help you work smarter and faster. They produce output at a rapid 28/33 pages per minute, with equal duplex speeds. Waiting time is further reduced with a fast 22-second warm-up and a first copy speed of 4.5 seconds.

## True multitasking

Printing, copying, faxing or scanning, you can now do it all from one office device. Network connectivity is ample, so these devices can be smoothly integrated into your existing workflow. For the optimisation of your entire document handling process, efficient document management tools are available. Using advanced device monitoring, the status of networked peripherals can be monitored and checked easily through web browsers.

## A wealth of customisation possibilities

At Lanier we design solutions to suit the way you work. The MP 285I and MP 335I can be customised to your exact requirements. Choose from various printer upgrade options and build the system that perfectly meets your needs.

## App2Me Enhance Personal Productivity

The App2Me® solution revolutionizes document management, enabling users to create customized workflows and execute them anywhere they go.

Download widgets to any client (desktop PC, laptop or Smartphone) and use them on any Lanier MFP enabled with App2Me.

Enjoy maximum convenience and a consistent experience at each App2Me-enabled MFP, which remains completely personalized no matter where you go.

Simplify complex workflows. Widgets can be created to combine, distribute, edit and create documents, as well as perform many other tasks automatically.

Maximize productivity. App2Me improves efficiency through widgets that control a virtually endless array of MFP, software or Web services-driven workflows.

Create specialized widgets for virtually any need, in any framework across multiple platforms that App2Me supports, such as Google Desktop™ and more.

How can you limit costs while improving your document handling?  
As the business landscape changes due to technological progress, you need a progressive solution. Combining high-tech hardware with the latest software, the MP 285I and MP 335I fit that description perfectly.

### Versatile finishing

To keep your document creation in house and produce your own professional looking output, the MP 285I and MP 335I can be equipped with one out of three finishers. You can even create high quality booklets if you opt for the 1,000-sheet booklet finisher.

### Wide media versatility

The MP 285I and MP 335I support a variety of paper formats from A5 to A3. You can also print on thick paper up to 157 g/m<sup>2</sup> to create report covers and flyers. The vast maximum paper capacity of 3,100 sheets allows you to effortlessly handle larger jobs. No need to waste time on continuous refills.

### Unique colour scanning & distribution

To save time and costs, you can distribute your information digitally. You can send colour documents as e-mail attachments combining 'scan to e-mail' and 'colour scanning'. In addition, you can scan to URL for reduced network traffic and unlimited file size requirements.

### Professional faxing

- Automatically distribute incoming faxes to e-mail or folder.
- Transmit faxes directly from the convenience of your own PC (LAN fax).
- Reduce costs by using the Internet for long distance faxing (Internet fax).
- Virtually eliminate the costs of sending (long distance) faxes by transmitting fax data over the IP/VoIP network (IP fax).

### At the forefront of eco care

Like all Lanier products, the MP 2851 and MP 3351 reflect Lanier's commitment to the environment through:

- the usage of toxic free materials;
- energy-saving toner production;
- paper-saving duplex capability;
- extremely low power consumption;
- clean and quiet operation.
